

# XBR95 RECUMBENT BIKE

The XBR95 recumbent bike excels with its ergonomic design and cord-free operation, catering to users of all fitness levels. Fully self-powered design lets you say goodbye to cord hassles. Its vibrant 7.5" Multi-Colour ClearView™ console keeps you engaged and informed, displaying vital metrics to help you stay in your target zone. Equipped with a 30 lb flywheel and 40 resistance levels, it ensures a consistently challenging workout. Bluetooth connectivity allows progress tracking via the SPIRIT+ app and 3rd party apps. It also supports pairing with a wireless heart rate monitor (Bluetooth or 5KHz, sold separately), while integrated Bluetooth speakers make it effortless to enjoy your favourite music or podcasts during your exercise routine. Additionally, a removable swivel-tilt tablet holder simplifies keeping your phone or tablet in view for entertainment or virtual fitness classes without obstructing console workout data.
