

# CU900 UPRIGHT BIKE

Easy Seat Adjustment -  
12 Vertical Positions

## CU900 Upright Bike - Precision, Performance & Durability

Engineered for commercial-grade performance, the CU900 Upright Bike delivers a smooth, consistent ride with its 30 lb (14 kg) flywheel and 40 levels of resistance, powered by an advanced induction brake system for instant, precise adjustments.

Designed for ultimate user comfort, the oversized high-density foam seat offers 12 vertical positions, while the molded handlebars provide a secure, ergonomic grip. Hand pulse sensors, strategically positioned on the handlebars, allow for effective heart rate monitoring to ensure safe and optimized workouts. The oversized pedals feature a fast-latch system and 2-degree inversion, promoting natural foot alignment and reducing joint stress.

Built to withstand high-use environments, the CU900's commercial frame is backed by a lifetime warranty. The self-generating power system eliminates the need for external electricity, reducing facility costs. With 11 pre-set programs, users can tailor their workouts for endurance, strength, and interval training, all tracked on a sleek, performance-driven console.

The CU900 Upright Bike delivers an unparalleled combination of durability, precision, and comfort, making it a standout choice for any commercial fitness facility.

## CU900 UPRIGHT BIKE

- 30 lb (14 kg) flywheel and 40 levels of magnetic resistance provide a smooth, consistent ride with seamless transitions to accommodate all fitness levels
- Oversized 1" crank axle along with heavy duty roller bearings provide long life and reliability
- Quick adjust seat easily slides to accommodates users of various heights
- Easy in and out ratcheting pedals with 2-degree pedal inversion for a comfortable workout
- Generator system allows the unit to be placed in any location
