

XBR95 RECURMBENT BIKE

Cord-Free Convenience. Elevated Comfort. Advanced Performance.

The XBR95 recumbent bike delivers high-end performance in a sleek, self-powered design—eliminating the need for cords and offering placement flexibility in any home or facility setting. Engineered for users of all fitness levels, the XBR95 features an ergonomic frame and oversized, self-balancing pedals with a fast-latch system for secure and comfortable pedaling.

A 30 lb (14 kg) flywheel and 40 levels of magnetic resistance provide smooth, consistent tension for everything from recovery rides to endurance challenges. The vibrant 7.5" ClearView™ multi-colour LCD console keeps users engaged with clear feedback on workout stats including time, distance, calories, heart rate, and resistance level ensuring they stay in their target zone every step of the way.

Bluetooth® integration enables easy syncing with the SPIRIT+ app and popular third-party fitness apps. Users can also pair with Bluetooth or 5kHz wireless heart rate monitors (sold separately) for more accurate heart rate tracking. Built-in Bluetooth speakers offer seamless audio streaming, while the removable swivel-tilt tablet holder lets users follow virtual classes or stream entertainment without blocking key console data.

Customize your training with 14 pre-set programs, 2 user-defined options, and multiple levels of seat adjustability. With hand pulse sensors, cord-free operation, and a lifetime residential warranty on frame and brake, the XBR95 is designed for durability, convenience, and performance to support your fitness goals for years to come.

FEATURES
