CRW800H2O Water Rowing Machine—Commercial Comfort Meets Fluid Resistance

The SPIRIT CRW800H2O Water Rowing Machine delivers a dynamic full-body cardio experience with a durable, light commercial-grade build and the authentic feel of water resistance. Engineered specifically for shared-use environments such as hotel fitness centres, corporate wellness rooms, schools, and community rec facilities, it combines intuitive functionality with long-lasting performance to meet the demands of daily use.

Built on a reinforced steel frame with dual aluminum tracks, the CRW800H2O delivers a smooth, stable ride with uncompromising durability. The water tank sits at a 45-degree incline—an engineering advantage that increases the resistance range across all six levels, creating a dynamic workout experience for users of every fitness level.

Comfort takes priority with a molded ergonomic seat, large flexing foot pedals, and a padded handle designed for long sessions. The 16" (41 cm) seat height offers easy accessibility for users of all sizes, while the wireless 5.5" LCD console adjusts for optimal visibility and delivers real-time metrics. Pre-loaded with 6 built-in workout programs, the CRW800H2O keeps users engaged and progressing.

With its lifetime frame warranty and sleek, self-powered design, this water rower is built for facilities that demand top-tier performance and long-term value.

CRW800H2O WATER ROWING MACHINE

- Water resistance (6 levels) simulates the feel of real rowing
- Heavy-duty steel frame can be positioned upright for storage
- Adjustable console provides the perfect viewing angle
- Commercial grade padded handlebar is both comfortable and durable
- Aluminum tracks for quiet and smooth performance
- Large flexing foot pedals and adjustable straps keep feet secure
- Raised 16" (41 cm) seat height gets users on and off with ease
- Large ergonomically molded seat for ultimate comfort
- Tank is pressure tested for long-lasting performance, and angled at 45 degrees to increase range of resistance compared to flat tank designs

CRW800H2O CONSOLE FEATURES

The new CRW800H2O console features a large, easy-to-read 5.5" LCD and an adjustable viewing angle, ensuring athletes have access to vital workout data when and where it matters most. Clearly marked sections display data including Time, Distance, Calories, Pulse, SPM, Total Strokes, Watts, 500 Time / Avg Time 500, and Level. With 6 pre-programmed workouts and optional manual settings, users of all levels stay engaged and at the peak of their training. The CRW800H2O console also automatically detects strokes, so getting started is as easy as sitting down and pulling on the handlebar.
