XT685ENT TREADMILL

XT685ENT Treadmill: Built for Performance and Endurance

The XT685ENT is engineered for serious runners and dedicated home users who demand durability, smart connectivity, and a commercial-grade training experience. Its powerful 4.0 HP PowerMax™ motor supports speeds up to 12 mph (20 kph) and handles incline changes across 15 levels, ideal for high-intensity interval training or steady-state endurance sessions. The spacious 22" x 60" (56 cm x 152) cm running surface with a cushioned deck ensures a stable, comfortable stride for users up to 425 lb (193 kg).

The 15.6" ClearView+™ touchscreen enhances every run with performance tracking, custom programming, and entertainment, no subscription required. Pair seamlessly via Bluetooth FTMS with third-party apps, heart rate monitors, or Bluetooth headphones for a fully connected workout. Whether streaming workouts or creating your own training sessions, the XT685ENT keeps motivation high and sets up hassle-free. Convenience features are built-in: handlebar-mounted rocker-style incline and speed shifters, USB charging, Bluetooth speakers, an adjustable cooling fan, and a removable tablet holder for added versatility. Larger accessory trays and dual bottle holders keep essentials close at hand, while the in-console quick keys make shifting intensity fast and easy.

Maintenance is minimal thanks to the 2-ply belt and high-efficiency deck, engineered for long distances without interruptions. Spirit's Safeguard 360™ includes child lock, safety key activation, and power indicator light, ensuring peace of mind with every workout. Backed by a lifetime warranty on the drive motor, the XT685ENT is built to perform, session after session.

FEATURES

- 15.6" Multi-Colour ClearView™ backlit LCD with built-in USB charging port
- Bluetooth FTMS connects to SPIRIT+ app as well as other third party fitness apps
- Rocker-style handrail-mounted controls for quick changes to speed and incline
