

CR900 RECUMBENT BIKE

Pedal with Fast Latch Strap

CR900 Recumbent Bike—Built for Comfort, Engineered for Performance

The CR900 Recumbent Bike redefines workout ease and durability, making it an essential choice for high-traffic fitness facilities. Designed with a step-through frame and backed by a lifetime warranty, users of all fitness levels can easily enter and exit the bike. The adjustable 18-position fore/aft molded foam seat ensures a personalized, ergonomic fit.

A 30 lb (14 kg) flywheel and 40 levels of smooth magnetic resistance deliver a fluid, low-impact ride, while the commercial-grade crank assembly provides lasting performance. Oversized pedals with a 2-degree inversion enhance comfort and natural alignment, reducing joint stress.

With self-generating power, the CR900 operates without the need for external electricity, making it a cost-efficient and eco-friendly solution. With 11 pre-set programs, users can choose from a variety of workout options to target different fitness goals. Conveniently positioned hand pulse sensors located on the lower handle bars provide real-time heart rate monitoring, ensuring safe and effective training.

The CR900 Recumbent Bike combines durability, comfort, and advanced technology, making it the perfect addition to any commercial fitness space.

CR900 RECUMBENT BIKE

- 30 lb (14 kg) flywheel and 40 levels of magnetic resistance provide a smooth, consistent ride with seamless transitions to accommodate all fitness levels
- Oversized 1" crank axle along with heavy duty roller bearings for reliable longevity
