DUALS LAT PULLDOWN / SEATED ROW

LAT PULLDOWN

SEATED ROW

The Lat Pulldown and Seated Row machine combines the two most popular back exercises into one modern design. The traditional Lat Pulldown bar can be adjusted to the user's preferred height. While in the Seated Row position, foot bars aid with stabilization and storage hooks secure the pulldown bar when not in use. An integrated rep counter keeps users motivated and built-in storage on the top cap makes storing accessories away easy.
